

TurtleBot 3

We have worked with the TurtleBot 2 in this course; however, there is a newer version of it available, TurtleBot3. It even has multiple models.

The following Tutorials teach you how to work with it. They concepts should be familiar to you by now; however, they may want to try more advanced projects.

- Simulation which will get you started with the TurtleBot3 in *Gazebo*
- [Autonomous driving](#) where you will have racing tutorials.
- [Videos](#) to get you inspired by projects others did
- [Machine learning](#)
